

WYO Chamber Music Program 2017-18

REGISTRATION FORM

Trios! Quartets! Quintets, and more!

Playing chamber music is one of the most gratifying, fun experiences a musician can have. In the WYO Chamber Music Program, students learn a set of musical skills that complement and strengthen their orchestra skills. Playing in small, chamber ensembles helps students at all levels learn to play with independence and confidence.

Students who enroll in the Chamber Program will receive six rehearsal sessions under the direction of a professional ensemble coach. Each rehearsal is one and half hour, and will be scheduled at a mutually convenient time/place for each ensemble. The chamber program begins in late January and culminates with a performance in late March.

- ❖ Strings, woodwinds, brass, and percussion students are welcome, contingent on enrollment. Students of any age or ability level are encouraged to apply.
- ❖ Students may form their own ensembles or we will form ensembles based on enrollment and group appropriately by ability. Each musician must register individually, even if you wish to work in a pre-formed group. For non-WYO members, please submit a short video of a piece that best represents the student's ability.
- ❖ Tuition covers six, an hour and half coached rehearsals and one recital. Payment is due at the time of registration: **\$180**.
- ❖ **Spring Chamber Recital: March 18, 2018, 3pm, TBA**

Tuition assistance available for this program.

*Please submit **Tuition Assistance form** from wyomusic.org website.*

Please contact Tanya Song at 910-200-9703 or manager@wyomusic.org.
